Madam mary	Sub-County Public Health Officer
Sammy Macharia	Engineer Municipality Public Health Officer
Arnold Omondi	Municipal Planner
Mr. Kanyoi	Chairman Engineer Water Project
Mr. Mwangi	Treasurer Engineer Water Project
Mr Mwangi Muracia	Secretary Engineer Water Project

VENUE: MUNICIPAL MANAGER`S OFFICE:

DATE: April,28th 2025

TIME: 14:00 pm to 16:30 pm

MIN 01/28/04/2025: Preliminaries

Meeting was called to order at 14:00 pm by the municipal manager.

Members present introduced themselves by name and their profession/expertise

The municipal manager gave her opening remarks providing the purpose of the meeting.

The manager introduced the sub-county public health officer, Madam Mary to give her opening remarks.

MIN 02/28/04/2025: Preliminaries

Name	Organization	Remark
Mary	Sub-County Public Health officer	• The purpose of the meeting is to bring to the attention of the water service providers on health cases related to the water supplied • The municipality has been having several cases of hepatitis with symptoms of jaundice and diarrhoea • There is need to find out what could be wrong with the water supply

Name	Organization	Remark
		• What can we do to improve the quality of water in Engineer municipality • The water service providers are responsible for detecting any defective pipes, laying out of the main infrastructure and maintenance

MIN 02/28/04/2025: Comments and Recommendations by the Water Service providers

Name	Organization	Remark
Mwangi Muracia	Secretary Engineer Water project	• 90% of grey water disposed in the roads • Most of the pipes are destructed by cattle especially along J30-Mopec road • There is need to endure that grey water does not enter run-off • Majority of the plots are draining the grey water into the open plots thus swamping the land • Most of the roads are encroached • Involve the MCAs in improving the state of sanitation • There is need to redesign the water supply system • Improve the material used (Replace the PVC pipes with more durable materials such as rolls) • Mobilize for resources for the provision of sewer system • Ensure that every plot has a water reservoir

MIN 03/28/04/2025: Way-Forward

The following actions were agreed upon:

1. Fast-track the decentralization of development control to Engineer Municipality
2. Discuss with the top county leadership on sewer system
3. Select a task force to advice on water and sanitation issues
4. Have a round table discussion with various stakeholders in the municipality
