FOREWORD

The County Government has been implementing the Social Economic Transformative Agenda as elucidated in the County Integrated Development Plan 2 (2018-2022). This is done through the Annual Development Plans (ADP) formulated each year. The ADP preparation process is guided by Section 126 of the Public Finance Management Act, 2012, and in accordance with Article 220 (2) of the Constitution. The ADP for the financial year 2022/23 is the fifth under the CIDP 2 Blueprint of the Current administration under the Leadership of H.E. Francis Kimemia, E.G.H, C.B.S.

The administration's milestones have been most magnanimous since devolution. The Socio-economic Transformative agenda has had all the sectors experiencing changes that have been instrumental in improving/enhancing the welfare of all the county residents' across all the socio-economic divides. The County has invested immensely in the education sector, where County Bursary allocations have been enhanced to close to Kshs. 150 Million in the current financial year. The Early childhood programme has also had its fair deal of promotion and enhancement via the school feeding programme and enhancement of employment terms of the ECD trainers. The Health sector, a key tenet for socio-economic welfare has received a large proportion of the County's budget for both recurrent and development expenditure. Over the last four years, the County has strived to ensure that all the health care providing centres are well equipped with strategic stock, personnel and equipment. To ensure that the County referral Centre is upgraded to the highest possible level, the County Government is currently constructing a complex that will be able to host key diagnostic centres that will directly lessen the duration taken by residents to access critical health care whilst lowering the costs they incur. The Transport, Energy and Public works Department has also revolutionized the project implementation strategy of rural roads across the county by opening up roads at low costs compared to what has been done previously.

The youth who are the county's future have been well empowered in the last four years through the youth empowerment programme, facilitation of youth training and Voluntary Training Centres. The Agricultural sector has invested to revitalize and improve production in the county. The County Government has supported programs for subsidized services and inputs for both crops and livestock programmes. Cooperative movement promotion that goes in tandem with improvement/enhancement of agricultural productivity has been enhanced over the last four years. Taking stock of various milestones vis-à-vis the situation at the inception of the

administration gives a bird's eye view of the progress made by the current administration.

The County resource allocation criteria is based on the County resource endowments, prioritization of ongoing and high impact projects, mitigation of COVID-19 effects on the county citizenry, assumption into office of a new administration amongst other variables. In ensuring adherence to the statutes of the Country, the Nyandarua citizenry and stakeholders were asked to submit their proposals for consideration and inclusion in the FY 2022/23 ADP through a national dailly. Consequently, the identified programmes and projects require Kshs. **7 Billion** to implement.

To track the implementation of the CIDP 2 and its resultant impact on the County Economy, the County will undertake a mid-term review of the Plan, this will act as a basis to take stock of the gains and pick up lessons on the implementation of the remainder of the Plan. Further, a well-structured framework has been set up to monitor and report regularly to various units such as the Governor's Service Delivery Unit, County Executive Committee, County Assembly, County M&E Unit, Office of the Controller of Budget and any other Agencies. Lessons learnt in the Monitoring and evaluation of programmes and projects in the FY 2020/21 have also been factored in in formulating the M&E framework for the FY 2022/23.

The goodwill of all the stakeholders is essential for the implementation of programmes and projects in the FY 2022/23. It is also more pivotal that the line of thought in the formulation of this Annual Development Plan is considered and critiqued to ensure implementation to the letter.

HON. STEPHEN M. NJOROGE, HSC
COUNTY EXECUTIVE COMMITTEE MEMBER
FINANCE AND ECONOMIC DEVELOPMENT

ACKNOWLEDGEMENT

The formulation of this CADP has been a concerted effort from various stakeholders of the County Government. The preparation process entailed in-depth stakeholder consultation. The CADP has adhered to various statutes more specifically the County Government Act, 2012, Public Finance Management Act, 2012 (PFMA) and the Public Participation Act.

The Economic Planning and Development Department is grateful to H.E. the Governor Francis Kimemia, and the entire County Executive Committee for giving inputs, consideration of the tabled proposals and approving them. In addition, special thanks go to the CECM for Finance and Economic Development, Hon. (Dr.) Stephen M. Njoroge for coordination and guidance in ensuring the fruition of the plan that is to form background for the programmes, projects and activities set for the financial year 2022/23.

The Technical Departments played a key role in translating the programmes in the CIDP 2 into programmes and projects for the Financial Year 2022/23 while ensuring that objectivity, needs and priorities of the Nyandarua Citizenry are well captured. It is for all these that I take this moment to thank all Technical Departments, other stakeholders and residents who participated in the generation of input for this Plan.

I also would like to appreciate the Economic Planning and Development Department team who have worked arduously in ensuring the document, encapsulating the CIDP 2 and other emergent issues has been formulated on time to meet the statutory deadlines.

Since it would not be possible to list everybody individually, I would like to take this opportunity to thank everyone else not mentioned here for their dedication, sacrifice and commitment in this process.

EXECUTIVE SUMMARY

Preparation of this Plan is guided by the Public Finance Management Act, 2012. The legal provisions in the PFM Act, 2012, gives the content, form and timelines for its preparation, submission and approvals. Section 126 (2) of the PFM Act, 2012 provides that the County Executive Committee Member responsible for Planning shall prepare the ADP in accordance with the format prescribed by regulations.

Chapter One provides the general information of the County on the socio-economic, infrastructural, ecological and environmental information. This includes a description of the County in terms of the location, size, demographic profiles as well as the administrative and political units. Further, the Chapter gives the link between the CADP and other Plans such as CIDP 2, Sector Plans among others and even how legal provisions have been adhered to. The process of preparing this Plan is also contained therein.

Chapter Two presents a summary of implementation during the previous planning period i.e. 2020/21 FY highlighting the achievements, challenges and emerging issues that were realized. It includes key lessons learnt from the implementation of the previous Plan and recommendations for improvement.

Chapter Three provides a highlight of the priority areas that the County Government will focus on and identifies the strategies, programmes and projects as identified by stakeholders in the County. Details of projects in different Sectors that are going to be implemented in the County in 2022/23 FY are identified. Measures to harness cross-sector synergies and mitigate the cross-sectorial impacts of projects are also provided.

Chapter Four contains a summary of the proposed Budget by programme and by sector/sub-sector. It also outlines the criteria used in the allocation of resources per programme or sector/sub-sector. Ways in which the County is responding to financial and economic constraints are also described.

Chapter Five outlines the monitoring and evaluation framework that will be used to track progress on the implementation of projects and programmes. Verifiable indicators, data collection, analysis and reporting that will be used to monitor projects and programs have been identified.

CHAPTER ONE

COUNTY GENERAL INFORMATION

1.1 INTRODUCTION

Nyandarua County is a County in the former Central Province of Kenya. It lies in the central part of Kenya between latitude 0°8' North and 0°50' South and between Longitude 35° 13' East and 36°42' West.

1.1.1 DEMOGRAPHICS

Nyandarua County as per the 2019 census had a total population of 638,289 making the County the 16th least populous County in the country. The County is the 2nd least populous in the former Central Province. Of this population, 66,535 (or 10.4%) lives in urban areas. The major urban areas in the County include Ol Kalau, Mairo Inya, Njabi-ini and Engineer. The County has one town classified as a Municipality, that is,

Ol Kalau the County headquarters.

The County has a total landmass of 3,286 km². The County's population is 638,289 (2019-census) and its population density is estimated at 194.3 people per km² with a total of 179,686 households. The average household size in Nyandarua is estimated at 3.6. Between 2009 and 2019, the County's population grew by 42,021 people with the annual population growth estimated as 0.69% per annum.

1.1.2 POLITICAL AND ADMINISTRATIVE UNITS

The County has 5 constituencies namely Kinangop, Kipipiri, Ol Kalau, Ol Jorok and Ndaragwa; with Kinangop being the largest by both population and landmass. It is further divided into 25 wards. In 2017, Nyandarua County had a total registered voter population of 335,634.

Constituency	Wards
Kipipiri	Githioro Wanjohi Geta Kipipri
Oljoororok	Gathanji Weru Charagita Gatimu
Kinangop	Murungaru Njabini Githabai Magumu Nyakio,Engineer Gathara N.Kinangop
Ndaragwa	Shamata Kiriita Central LeshauPondo
Olkalou	Mirangine Kanjuiri Rurii Kaimbaga Karau

1.1.3 HEALTH SERVICES PROVISION AND INFRASTRUCTURE

As of 2020, Nyandarua County had a total of 167 health facilities (Level 2 to Level 4) and of these facilities, 81 are Public/Ministry of Health.

The County has two Level 4 Hospitals (i.e., JM Kariuki Memorial Hospital in Ol'Kalou and Engineer District Hospital in Kinangop) and the 3rd is owned by the Catholic Church (i.e. North Kinangop Hospital). Comparing between 2012 and 2020, the number of health facilities in the County have increased from 120 to 167, with public health facilities increasing from 65 to 81 which is 39% and 25% increment in about 8 years.

1.1.4 ROADS, ENERGY AND OTHER INFRASTRUCTURE

The county has a classified road network of 3,400 Kms of which 224 Kms of road is bitumen standard, 759.5 Kms is graveled with 2,416.4 Kms classified as earth roads. The County Rural Machinery Programme has been instrumental in the maintenance and rehabilitation of earth roads to graveled category and low and sustainable costs compared to the output emanating from private contracted roads.

Additionally, the ongoing construction of roads in the County will see the length of paved roads increase by an additional 80-100 Kms, and also link the County with Murang'a County which despite sharing borders haven't been connected in the past through paved roads.

On access to electricity based on the 2019 Census, Nyandarua County has only 41% of households connected to the national grid.

The County has the highest proportion of households using solar energy as the main source of lighting in the larger Central Province estimated at 28%, and significantly higher than the national average of 19%. Only about 13% of the households in Nyandarua County rely on LPG Gas as the main source of cooking energy.

The Gilgil- Nyahururu railway line traverses through the County. However, the line was initially in a state of disrepair but rehabilitation of the line is ongoing through collaboration with the national government.

1.1.5 WATER, NATURAL RESOURCES AND SANITATION

The number of households in Nyandarua County according to the 2019 census was 179,686 with a population of 636,002 persons. The number of households connected to piped water is 46,400 which accounts for 25.82% of the total households.

A total of 22 rivers flow through Nyandarua County, of which eight are permanent, namely Malewa, Ewaso Narok, Pesi, Turasha, Chania, Kiburu, Mkungi and Kitiri. The County is also home to Lake Ol' Oborosat, the only lake in Central Kenya, and it's also the largest water mass in the County. Although it's a small lake with an average size of about 43 sq.km, the lakes catchment area is estimated as 4,800 sq.km encompassing Nyandarua Ranges, Satima Escarpment and Ndundori Hills. The lake is home to over 300 different species of birds. The lake was marked as the 61st most important bird area in the County. The lake is also home to a large number of hippos.

The County' first sewer system is currently under construction in Ol Kalau Town under the national government's Sustainable Water Supply and Sanitation Programme

1.1.6. CLIMATE

The County experiences two rainy seasons with a long rainy season from March to May, with a maximum rainfall of 1,600 mm and a short rain season from September to December, with a maximum rainfall of 700 mm. Rainfall intensity varies according to the location. Areas near the Aberdare slopes receive sufficient rainfall, whereas rainfall in the lower parts of Ndaragwa plateau is scanty and erratic The temperature in the County ranges between 26 C (February) to 21C (June)

1.1.7 AGRICULTURE

Agriculture is the backbone of Nyandarua's economy due to the fertile soils and favourable climate. The sector employs over 69% of the population and contributes approximately 73% of household incomes; and is a major contributor to food security at the household level.

Both livestock and crop production thrive well in the County; with the main livestock types in the County being dairy cattle, local poultry and wool sheep. Crop farming is mainly for subsistence where about 52% of the cultivated land is under food crops (maize, Irish potatoes, carrots and peas). The major cash crops include cut flowers (grown in both small and large scale), wheat and high altitude fruits.

Farming is mainly rain-fed and farmers mostly practice mixed farming, combining crops and livestock. About 93% of the farmers in the County have title deeds. The annual production of potatoes in the County is estimated as 500,000 MTs (contributing to nearly 35% of Kenya's annual potatoes production), and is grown in approximately 33,000 ha of land, with the potatoes production estimated to have a market value of 10 Billion.

Another major crop under production in the County is garden peas, whose annual production is estimated as 30,000 MTs, which is nearly 37% of Kenya's annual production and is produced from approximately 15,000 hectares. The market value for the garden peas in the County is estimated at 2 Billion.

1.1.8 COUNTY REVENUE STREAMS

The County revenue streams are limited to equitable share, conditional grants and own-source revenues. In the FY 2020/21, Nyandarua County received an equitable share of approximately Kshs. 4.874 Billion and conditional grants of Kshs. 1.424 Billion from the national government. The conditional grants are largely sector biased to either the health or agriculture sector.

In the financial year 2020/2021 the amount of money raised through the Own Source Revenue in Nyandarua County was estimated at Kshs. 408 Million. The main sources of own revenue in the County include JM Hospital, single business permits, project management fees, produce cess royalties among others.

1.2 ANNUAL DEVELOPMENT PLAN LINKAGE WITH LAW AND CIDP 2

1.2.1 LEGAL FRAMEWORK

The 2022/2023 FY CADP has been prepared in compliance with the following provision of the Public Finance Management Act, 2012 (PFMA):

Section 126 of the Act provides that every County government shall prepare a development plan in accordance with Article 220 (2) of the Constitution that includes:

- a. Strategic priorities for the medium term that reflect the County Government's priorities and plans;
- b. A description of how the County Government is responding to changes in the financial and economic environment;
- c. Programmes to be delivered with details for each programme of-

- i. The strategic priorities to which the programme will contribute;
 - ii. The services or goods to be provided;
 - iii. Measurable indicators of performance where feasible; and
 - iv. The budget allocated to the programme;
- d. Payments to be made on behalf of the County Government, including details of any grants, benefits and subsidies;
- e. A description of significant capital developments;
- f. A detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the County, including measurable Indicators where those are feasible

Further, the section provides that the County Executive Committee Member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations and shall, not later than 1st September in each year, submit the development plan to the County Assembly for approval, and send a copy to the Commission on Revenue Allocation and National Treasury.

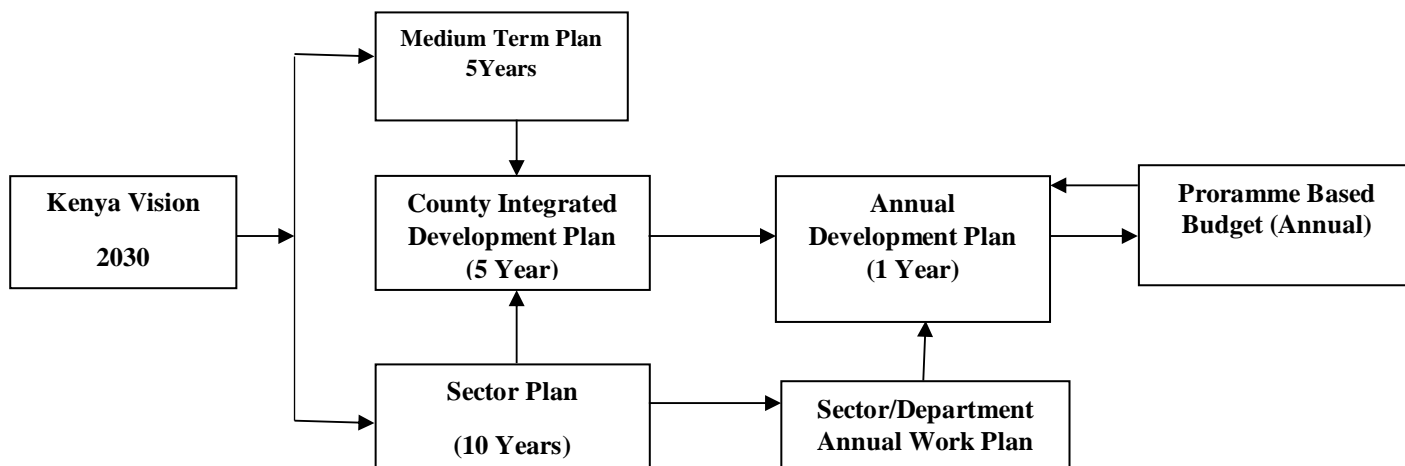

The Act also requires the County Executive Committee member to publish and publicize the annual development plan within seven days after its submission to the County Assembly.

1.2.2 ANNUAL DEVELOPMENT PLAN LINKAGE WITH CIDP 2 AND THE BUDGET

The ADP is a key document that comprises a one-year extract of the five-year County Integrated Development Plan (CIDP). The ADP serves as a basis for the development of the County annual budget. It guides the budget-making process for the next financial year. The ADP forms the initial stages of the budget-making process hence it informs the County executive's decision in coming up with budget estimates.

The Nyandarua County Annual Development Plan (FY 2022/2023) has been prepared based on priorities outlined in Nyandarua CIDP 2. The priorities in CIDP 2 are aligned to Kenya's Vision 2030 and are in line with the Jubilee Manifesto, the President's Four-Point Agenda and H.E The Governor's Manifesto for the period 2018-2022.

1.2.3 ADP LINKAGE WITH DEVELOPMENT PLANS

1.2.4 PREPARATION PROCESS OF THE ANNUAL DEVELOPMENT PLAN

The preparation of the FY 2022/2023 ADP was a consultative process as demonstrated through the participation of all County departments and the public through a public invitation on the leading daily. The Plan has taken into consideration into consideration the priorities of the Nyandarua County Citizenry and stakeholders as documented in the CIDP 2 (2018-2022). The priorities and needs of the people of Nyandarua were captured through desk reviews and analysis of data collected from public participation during the Participatory Urban and Rural Appraisal (PURA) and documented in CIDP 2, as well as existing development plans, Africa Agenda 2063, the Kenya Vision 2030, the Sustainable Development Goals (SDGs) and other strategies and policies. Members of the public were also requested to submit their proposals and memoranda for inclusion in the Plan.

The drafting of the ADP FY 2022/2023 took into consideration recent data and other policy documents available in the County. The ADP FY 2022/2023 is anchored on the provisions outlined in the Constitution of Kenya, (2010), County Governments Act, (2012) and the Public Finance Management Act, (2012).

2.2.1.3 COUNTY PUBLIC SERVICE BOARD

2.2.3 COUNTY ATTORNEY

The Office of the County Attorney (*hereinafter referred to as “the O.C.A ”*) has been established by the Office of the County Attorney Act, 2020, (*hereinafter referred to as “the Act”*) whose main function is to advise the County on legal matters.

Strategic issues.

The strategic issues of the O.C.A are identified as follows:

- ❖ Legislative drafting
- ❖ Litigation

- ❖ Commercial transactions
- ❖ Conveyancing
- ❖ Alternative Dispute Resolution mechanisms (A.D.R.)
- ❖ Provision of general legal services
- ❖ Legal Registry and legal resource centre
- ❖ Publishing of gazette notices and legislative documents.

2.2 Roles and function of the Office of the County Attorney

Section 7 of the Act provides for the Functions of the OCA as follows:

- a. Advisory: The OCA is the principal legal adviser to the county government and departments on legislative and other legal matters;
- b. *Exofficio* member of the executive committee: attend the meetings of the county executive committee;
- c. Legal representation: The OCA represents the county executive in court or in any other legal proceedings to which the county executive is a party, other than criminal proceedings;
- d. Contracts: The OCA negotiates, drafts, vets and interprets documents and agreements for and on behalf of the county executive and its agencies;
- e. Law Reform: The OCA aids in revision of county laws;
- f. Liaising with the Office of the Attorney-General when need arises; and
- g. Performing any other, function as may be necessary for the effective discharge of the duties and the exercise of the powers of the County Attorney.

3.0 Key achievements

The O.C.A has met various achievements and/or contributions that are in tandem with the manifesto. The said achievements are as per the commitments indicated under Pillar One (Good Governance) in the manifesto and they are as follows:

1. Establishing a robust Governance Model incorporating transformative strategies, effective systems, structures, trained staff and shared core values.
2. Developing a Policy Framework on access to equalization funds.
3. Capacity building for County staff.
4. Initiating discussions on ownership of Nyahururu.

5. Embracing a strong value system anchored on the ideals of the Constitution of Kenya, 2010.

The O.C.A has also met various specific achievements which include the following:

Hiring of new staff

In April, 2021, the Nyandarua County Public Service Board in consultation with the O.C.A hired:

- i. One (1) Senior Legal Officer;
- ii. Two (2) Legal Officers;
- iii. One (1) Legal clerk; and
- iv. One (1) Legal intern (under the Internship Programme)

The new staff assists in carrying out of the functions of the O.C.A as provided for in Section 7 of the Act.

The hiring of the new staff has largely saved on county operational costs that arise as result of outsourcing of external advocates. This has also resulted to efficiency in the said office due increased human personnel.

Litigation

The O.C.A represents the county executive in court or in any other legal proceedings to which the county executive is a party, other than criminal proceedings. The Office is currently handling over Eighty (80) active files which the County Government if a party. The office has successfully completed over **Twenty Five (25)** court matters in the 2020/2021 financial Year.

Initiating Alternative Dispute Resolution (A.D.R) mechanisms

The O.C.A has initiated A.D.R mechanisms to aid in settling matters amicably to avoid going through tedious, time consuming and expensive court procedures and to maintain proper use of public funds.

Specifically, the O.C.A in collaboration with the Department of Lands, Housing and Physical planning as well as other Ministries, Departments and Agencies such as National Land Commission (N.L.C) is in the process of preparing and establishing the Ol Kalou Plots Dispute Resolution Tribunal. The tribunal will be tasked with resolving land disputes identified by the Ol Kalou Town taskforce in Nyandarua County.

Advising on Contracts and Agreements with regards to County transactions

The O.C.A negotiates, drafts, vets and interprets documents and agreements for and on behalf of the county executive and its agencies. The Office has helped the various departments in the County in making proper agreements and contracts that bind as well as protect the County in various transactions. The Office assisted in the drafting of the Medical Complex at J. M. Kariuki Hospital Construction Agreement among others.

The Office has assisted various departments in drafting and reviewing of various Memorandums of Understanding (M.O.U). Among them are:

- a. County Government of Nyandarua and Kenya Institute for Public Policy Research and Analysis;
- b. County Government of Nyandarua and National Council for Persons with Disabilities; among others.

The O.C.A is also in the process of organizing for a workshop with the Office of the Attorney General to upraise the staff with contract related drafting skills.

Legislative and policy making

The O.C.A advises County departments in the county executive on legislative and other legal matters. In addition, the O.C.A is responsible for the revision of county laws. The office has assisted various departments in formulating and amending of various legislations in the County.

The O.C.A in May 2021 organized a departmental workshop meeting on capacity building, to discuss on the County legislative legal framework.

The O.C.A has assisted to successfully draft the following legislations: -

- a) The Nyandarua County Agriculture Revolving Fund Act, 2020;
- b) The Nyandarua County Health Service Bill, 2021;
- c) The Nyandarua County Water and Sanitation Service Bill, 2021;
- d) The Nyandarua County Heroes and Award Policy and Bill, 2021;
- e) The Nyandarua County Social Assistance and persons Living with Disability Policy, 2021;
- f) The Nyandarua County Policy on Locum engagement of Staff in the Department of Health Service, 2021;
- g) The Nyandarua County Climate Change Act, 2021;
- h) The Nyandarua County Climate Change Policy, 2021;
- i) The Nyandarua County Climate Finance Policy, 2021;
- j) The Nyandarua County Alcoholic Drink Control (Licensing) Regulation, 2021;
- k) The Nyandarua County Trade and Investment Authority (Fund) Regulation, 2021;
- l) The Nyandarua County Asset Disposal Policy, 2020;
- m) The Nyandarua County Cooperatives Societies Policy ,2021;
- n) The Nyandarua County Sports Policy, 2021;
- o) The Nyandarua County Trade and Investment (Amendment Act), 2021;
- p) The Nyandarua County Roads Construction and Maintenance Equipment, Plant and Machinery Management Policy Guideline, 2020;
- q) The Nyandarua County Youths Policy, 2021;
- r) The Nyandarua County ICT Policy, 2021;
- s) The Nyandarua County Public Communication Policy, 2021;
- t) The Nyandarua County Disaster Management Policy, 2021; and
- u) The Nyandarua County Communication and Access to Information Bill, 2021.

In June 2021, the office of The Commission on Administrative Justice conducted training to the departments of Information Communication Technology (I.C.T) and O.C.A on access to information. The commission concentrated on the following thematic areas: -

- i. Offering technical assistance in the review County Draft Information Communication Technology (ICT) policy;
- ii. Sensitizing and disseminating the County on the Access to Information (A.T.I) County model law pursuant to Section 96(3) of the County Government, 2012 which requires Counties to enact legislation to ensure access to information; and
- iii. Sensitizing the County on the Draft Access to Information Regulations which the Commission has commenced Public Participation.

The O.C.A is in the process of getting into a Memorandum of Understanding (M.O.U) with The Commission on Administrative Justice to assist in capacity building on matters related to access to information in the County.

County Public Land

The two key areas on County Public Land have been discussed below: -

Acquisition of new parcels of land for the County

The O.C.A has in collaboration with the Department of Lands, Housing and Physical Planning and in the spirit of public interest been able to transact with various parties so as to acquire public land. Among them are: -

- a) NYANDARUA/WANJOHI/5496- this parcel of land has been purchased from Wanjohi Cooperative Society;
- b) NYANDARUA/TURASHA 4073, 4074, 4075, 4067, 4070, 4076, 4077, 4183, 4184, 4185, 4175, 4176 and 4177, all being resultant titles from sub-divisions of parcels 578, 579, 580, 579, 580, 587 and 588 to provide for roads of access measuring 1.9206 Hectares.

Recovery of County Assets

The O.C.A has worked with the Department of Lands, Housing and Physical Planning in forming the Ol Kalou Town taskforce to help in recovery of County land as well as solving land disputes through A.D.R mechanisms. Additionally, the office is defending court cases filed on public interest grounds i.e *Nyahururu CM ELC 55 of 2020 - Baddy Gichuki –vs- John Ngugi*, in the recovery of **Nyandarua/Silibwet/2266** which parcel members of the public believe to be public land.

Preparation of County Plans

The O.C.A in collaboration with other departments mainly the Department of Land, Housing and Physical Planning and Department of Industrialization, Trade and Urban Development, is in the process of preparation of the *Olkalou Integrated Sustainable Urban Development (SPATIAL Plan)*.

County Vehicle Insurance Claims

The O.C.A. may perform any other function as may be necessary for the effective discharge of the duties and the exercise of the powers of the County Attorney. The Office assists the County Departments to fast tract and make correspondences with Insurance Companies on behalf of the County on matter relating to insurance.

The O.C.A has fast-tracked and facilitated the repairs and release of the following County vehicles:

2.2.8 TRANSPORT, PUBLIC WORKS AND ENERGY

Road transport is the primary mode of transportation in Nyandarua County, with a total road length of approximately 3,400 kilometres. In the last financial year 2020/21 the department had a target of 737 kms of road to gravel, grade and maintain. There was also a target of 5 pieces of culverts to be installed.

In the public works division, there was a target of 9 boda boda sheds to be constructed and installed. The division was also to construct 7 bridges across the county. The county headquarters is also an ongoing project.

The energy division was to organize for the mapping of areas where installation of transformers shall be done by REREC across the County. It was also to maintain floodlights and had a target to procure and installed 31 floodlights.

The fire emergency and disaster management unit was to assist with fire outbreaks within the County.

Strategic priorities of the sector/sub-sector

The department of transport, energy and public works had the following priorities:

- Rural road improvement across the County
- Periodical maintenance of county roads
- Construction and maintenance of bus parks and boda boda sheds
- Development and maintenance of bridges
- Development & Maintenance of firefighting & emergency response services.
- Development & maintenance of floodlights and street lights.

2.2.9 WATER, ENVIRONMENT, TOURISM AND NATURAL RESOURCES

The strategic priorities of the sector

- To strengthen the management capacity of community managed water projects to ensure that there were professionally and sustainably managed.
- Develop affordable and operations and maintenance cost recovery water tariffs.
- Improve access to safe drinking water and sanitation
- Promote, conserve and protect the environment and for sustainable development.
- Planned Versus Allocated Budget in Kshs

Planned Budget	Allocated budget	Variance
396,000,000	289,877,069	106,122,931

Sector Achievements in the Previous Financial Year

The department utilized the approved budget for programmes, projects and activities implementing 54.7% of the approved budget.

Key Achievements

In the 2021/21FY the Department of Water, Environment, Tourism and Natural resources implemented and actualized various projects and programmes in all wards across the County as laid down in the departmental development plans. Below is the breakdown of the activities and their accomplishment

Water Resource Development

- NYANDAWAS operationalized in line with 2016 water act
- Draft County water policy ready
- 13 No new borehole sunk and 3 no boreholes rehabilitated
- Sewer master plan complete and the works for Olkalou town sewerage system at 60%
- Design consultancy for Pesi dam ongoing
- Hydro-geological surveys conducted in 6 boreholes sites
- 23 new boreholes drilled to reduced distance to water sources, distribution pipes laid
- Plastic tanks supplied to ECDs and schools as per the budget
- Plastic tanks worthy ksh 6,400,000 supplied to various wards (Gathara, Murungaru, North Kinangop, Shamata and Njabini wards)
- 22 No water storage facilities works completed (masonry tanks and elevated water tower)

Climate Change Resilience

- County climate change unit establishment approved
- County Climate Change Unit established
- County Climate Change policy developed
- County Climate change act developed and approved
- County Climate Change Fund Regulations developed
- County Climate change finance policy developed

Tourism Development and Marketing

- Robust marketing of tourism products done through MICE concept where three successful events were undertaken in the course of the year i.e hiking, commemoration of the world tourism day, signing of TIPS.
- Construction of the solar heated swimming pool ongoing awarded and works are ongoing.
- Reduction of human wildlife conflict through partnership with KWS, stakeholders and community.
- The gazettement process of lake Olbolsat as a national reserve ongoing, request letters written to the levanta line ministries for action
- Drafting of lake management plan complete, plan to be launched on 27th September 2021

Environment Conservation and Management

- The department operationalized the County Environmental Committee
- Advisory and monitoring of Environmental and social safeguards in county projects and programmes – EIAs, SPR and EA
- Facilitated the commemoration of the World Environmental Day
- Monitoring of environmental management plans (EMPs)

Irrigation

- Mastoo Irrigation water project-Ongoing
- Karandi irrigation project complete
- Kurungu Borehole irrigation project-ongoing

- Natural Resource Management
- Gazettement of Arboretum and Nyayo forest as County forests initiated through a cabinet memo.
- Gazzetent of lake Ol bolossat as a national reserve is ongoing.

Summary of Sector/ Sub-sector Programmes and Achievements in the Previous Financial Year 2020/21

Sector Name: Water Resources Development						
Objective: To provide adequate and sustainable water supply for domestic livestock and industrial purposes						
Outcome: Improved Accessibility to Adequate Clean Water Supply						
Sub Programm	Key Outcomes/ outputs	Key performance indicators	Baseline	Planned Targets	Achieved Targets	Remarks*
Water Resource Development	Masonry tank constructed/repared	No. of masonry tanks constructed	11	5	4	
	Increased pipe line distribution networks	No. of households connected with water Length of pipes laid and repaired Length of gutters fitted	103			
	Rehabilitated/Desilted intake/weir	No. of desilted intake	6	1	0	
	Water intakes	No. of intake constructed	5	2	1	
	Water towers	No. of water towers elevated and constructed	14	9	6	
	Plastic water storage tanks	No. of different size plastic tanks supplied and installed				
	Improved security and proper management	Borehole sites fenced and secured	17	15	9	
	Increased water volume	No. of dams desilted	4		0	
	Improved water production	No of borehole installed with water submersible, booster and surface pump/installed	29		11	

		solar panels system No. of households connected with water.			
	Improved water supply	No. of control panel/power house constructed	12		
	Compliance and informed improved reliable decisions	No. of EIA reports	20		
	Informed improved reliable decisions Increase of water supply Provide people with water	No. of boreholes test pumped and the yield m3/hr	16		
		No. of WRA permits in place	12		
		No. of hydrogeological survey reports	13		
		No. of boreholes drilled/repaired No. of households connected with water	9		
	Increased access to clean portable water at household level	No. of households benefiting through kiosk constructed	8		
	Increased water harvesting	No. of gutters Supplied and installed	24		
County Special Programmes	Kanjuiri dam rehabilitation phase 2- Construction of reservoirs at Kanjuiri Hills Supply and laying of pipes	Additional No. of households served by the project	0	50	
	Leshau karagoini water project- Rehabilitation works	Percentage of completion of rehabilitation works	0	100%	
	St. Lukes water project-Expansion oof water supply	Additional No. of households served by the project	0	20	

	Kiriita Kinja area- Rehabilitation of water intake	Percentage of completion of rehabilitation works	0	100%	
	Desiltation of Dams- Desiltation of Coloboise Dam	Percentage of completion of desiltation	0	100%	
	Plot 10 borehole drilling and equipping	Percentage of completion	0	100%	

Programme Name: Environmental Management						
Objective: To promote integration of environment issues in policies, plans, programmes and projects in all sectors						
Outcome: Well managed and conserved environment, a foundation for sustainable development.						
Sub Programme	Key Outcomes/ outputs	Key performance indicators	Baseline	Planned Targets	Achieved Targets	Remarks
Afforestation	Tree planting on Aberdare Escarpment, riparian land surrounding Lake Olbolossat and public forests	Increased vegetation on cover		50,000		
Protection of forest from deforestation	Purchase and Supply of LPG Cylinders	No of LPG Cylinders	2160	3250		
Maintenance of storm water drains in urban centers	Clean, maintain and repair the water drains passage	No. of urban areas where storm water drains are regularly unclogged		All urban areas		
Establishment of tree nurseries	Train and support individuals and groups who raise tree nurseries with tree seedlings	No. of trees raised in nurseries ready for transplanting		50,000		
Programme Name: Irrigation and Drainage						
Objective: To increase the area of acreage under irrigation						
Outcome: Increased area under irrigated agriculture						

Sub Programme	Key Outcomes/ outputs	Key performance indicators	Baseline	Planned Targets	Achieved Targets	Remarks*
Irrigation and drainage works.	St Joseph Hianyu borehole Murungaru Ward Kinangop sub county- Distribution pipeline	Increased area under irrigation		750		
	Mwarangu Dam Irrigation Scheme- Mirangine- Intake box and distribution	Increased area under irrigation		1,000		
	Muti Umwe Borehole Ndaragwa Central Ward- Distribution pipeline	Additional length of the pipeline		5Km		
	Huhoini Irrigation - Gathanji- Distribution pipeline	Additional length of the pipeline		8Km		
Programme Name: Tourism Development & Marketing						
Objective: To identify, map and develop tourism attraction sites and promote community-based local tourism						
Outcome: increase in the number of visitors						
Sub Programme	Key Outcomes/ outputs	Key performance indicators	Baseline	Planned Targets	Achieved Targets	Remarks*
	Lake Ol'bolosatt conservation, management and exploitation of resources therein	Percentage of completion of planned activities				No funds provided
	Kiganjo recreation conservation, management and exploitation of	Site fenced for conservation	0%	100%	0%	

	resources therein					
	Development of Ol' Kalou arboretum in Kaimbaga ward	Solar heated swimming pool and support facilities in place	0	100%	20%	Phased project
	Development of Gwakungu equatorial site in Ilesha ward	Percentage of completion of monument and fencing	0	100%	0%	
Programme Name: Natural Resources Management						
Sub Programme	Key Outcomes/ outputs	Key performance indicators	Baseline	Planned Targets	Achieved Targets	Remarks*
Rehabilitation of quarries	Rehabilitation of quarries in Ol'Kalou	No. of acres rehabilitated by backfilling		10		
Programme Name: Natural Resources Management						
Sub Programme	Key Outcomes/ outputs	Key performance indicators	Baseline	Planned Targets	Achieved Targets	Remarks*
Climate Change Resilience	Support full establishment and operation of the county climate change unit	Functional CCU and Committees		1 unit		
		Stage of completion of County Climate Change Act		Approval		
		No. of Compliance Reports		4		
		No. of community climate change smart projects initiated		1 per ward		
		Amount of Fund		(% of county development fund (initial capitalization)

2.2.10 INDUSTRIALIZATION, TRADE, COOPERATIVES AND URBAN DEVELOPMENT

The strategic priorities of the sector

- Promotion of trade in the County
- Promotion of Cooperative movement in the County
- Promote cottage industries and enterprise in the County
- Enhance value addition to reduce post-harvest losses and stabilize market prices
- Enable access to cheap credit
- Upgrade and development of urban centers
- Beatification of urban centers
- Provision of parking lots
- Ensure fairness in weight and measures

Sector Achievements in the Previous Financial Year

- 6 markets constructed
- 4 toilets constructed (1 bio digester toilet and 3 pit latrines)
- 1000 traders' capacity building training.
- 1 trade policy formulated
- 15 markets and toilet fumigation and cleaning done (equipment distributed under COVID funds).
- 6 markets/toilets committee trained.
- 2 co-operatives revived
- 45 co-operatives audited
- 12 co-operatives disputed settled.
- 56 co-operatives capacity building trainings
- 56 co-operatives infrastructure supports
- 1 cooperative policy formulated
- Promotion of good governance and ethics in cooperatives through training of 100 cooperatives
- 750 weight and measures equipment verified.
- 5 towns upgrade to cabro standard
- 1 drainage works done

Analysis of planned versus allocated budget in Kshs

Planned Budget	Allocated	Variance
195,500,000	310,508,700	115,008,700

This sector comprises of the Industrialization, Trade, Cooperatives, Weight and Measures and

Urban Development directorates.

Vision

The leading department in transforming the livelihoods of the community.

Mission

To promote and provide an enabling environment for the growth and sustainability of Trade, Co-operatives, Industries, Enterprise and Urban development.

Sector strategic priorities

The strategic priorities of the sector/sub-sector	Development need
Co-operative development	To Enable members access services of co-operatives
Trade development	To promote private sector development through enterprise and entrepreneurship development
Weights & Measures	To Ensure fairness in all trade transactions involving quantities through regular checking of all weights & Measures, equipment.
Industrial and Enterprise development	-to improve cottage industries by value addition to local raw materials and increased quality & productivity -to promote growth and development of MSEs though market access
Urban development	To ensure secure competitive and sustainable urban areas for the delivery of accessible and quality infrastructure and services

Sector/sub-sector key stakeholders

STAKEHOLDER	ROLES AND RESPONSIBILITIES
National government	Ensure proper funding to the County government, Delivering on Presidential directives and commitment Partnership on semi devolved function such as Industrial and enterprise development.
Private sector	To partner with the sector in investing in areas with gaps especially on value addition of County produces.
Export promotion Council (EPC)	Partner with the County in marketing and promotion of County goods and services.
Members of the public	Participating in public participation forums and monitoring and evaluation committees.
Donors	Funding and Ensuring accountability.

2.3 CHALLENGES EXPERIENCED IN THE IMPLEMENTATION OF ADP FOR 2020/21 FY

In the FY 2020/21, the county was grappling with the COVID-19 pandemic that continues to affect negatively all the socio-economic facets of the citizenry of the County. Mitigating the effects was a key strategy across the departments which was largely done through the County Emergency Fund and other social programmes across all the sectors. The challenges notwithstanding, the County has had the highest Own-Source, revenue collection at Kshs. 408M. Notable challenges in the financial year are not limited to:

- ✓ Budgetary constraints thus limiting the scope and the number of projects being undertaken by the department
- ✓ Shortage of personnel in the departments.
- ✓ Lack of working offices for staff at sub-county level.
- ✓ Lengthy processes of approval by external stakeholders
- ✓ Inadequate internal control systems
- ✓ Inadequate resources for capacity building

CHAPTER THREE

3.3.7 HEALTH SERVICES

The Department aims to improve Health Infrastructure as a key pillar in the Health transformative agenda. Some critical services are still missing or being provided sub-optimally. The County will endeavour to bring critical services closer to the citizen by expanding the scope of services being offered at the sub-county level. This will be achieved by upgrade of several Health facilities to a sub-county level hospital. These facilities are Ndaragwa, Bamboo, Manunga, Mirangine and Ngano Health facilities. Critical staff gaps will continue being filled so that quality services can be offered. Other supportive pillars will continue being improved so that the Health transformative agenda can be realized.

Vision:

A county free of preventable diseases and manageable ill-health.

Mission:

To offer affordable, accessible, quality, sustainable health care services and clean environment to all clients in the County.

Sector/ subsector Goal

The department strives to provide quality preventive, promotive and curative health care Services in the County.

Sector/subsector Development needs, Priorities and Strategies

This department has its mandate derived from the fourth schedule of the Constitution of Kenya which includes overseeing the following:

- (a) Health County health facilities and pharmacies;
- (b) Ambulance services;
- (c) Promotion of primary health care;
- (d) Licensing and control of undertakings that sell food to the public;
- (f) Cemeteries, funeral parlours and crematoria; and
- (g) Refuse removal, refuse dumps and solid waste disposal

Sub-sector goals and targets

The department aims at improving the quality and scope of services being provided in its Health facilities. This will be achieved through capacity building of health personnel as well as improving infrastructures used in service provision. Adequate health products will be procured for sustained healthcare service provision

Key statistics for the sector/ sub-sector

Number of facilities per level and by ownership

Facility ownership	Level 1	Level II	Level III	Level iv
GOK	128	56	26	2
FBO	0	7	1	1
PRIVATE	0	132	2	0
Total	128	188	29	3

The Department currently has 84 functional Health facilities fully owned by the government: Two level IV Hospitals, 26 Health Centres and 56 Dispensaries and has two mobile clinics.

The strategic priorities of the sector/sub-sector

Health is structured in 8 building blocks. For efficient service delivery, all these pillars require to be improved so that the transformative agenda can be realized. This will be achieved through implementation of annual development plans that are realistic and goal oriented. The agenda should be to refocus the planning methodologies to achieve the much-anticipated transformations. This will be achieved through financing by the county government of Nyandarua and through other collaborative partnerships. The partnership with the national government through the ministry of Health will form the backbone of these partnerships.

Description of significant capital and non-capital development

Being the 5th year of implementation of the second CIDP 2018-2022, this Annual Development Plan will continue to re-focus planning to achieve the transformative agenda. The upgrade of Health facilities to various levels will improve Service Delivery.

Introduction of new services currently not being offered in various Health facilities will bring services closer to the people. Proper management and prudent use of health commodities and products will give value for money as well as efficiency. More equipment for use shall be procured for effective delivery of health services as well for replacement of obsolete equipment.

Health management and governance shall be revamped so that management can be result oriented. Data shall be collected and collated appropriately for use in decision making. Financing of health facilities shall be goal oriented whereas operational research shall be conducted to inform the operations of the health facilities.

Sector/sub sectors key stakeholders

The National Government through the Ministry of Health forms the backbone of key Stakeholders. Other private and Non-Governmental organizations will contribute to achievement of the transformative agenda in the Department of Health. Notable and worth mentioning is DANIDA, World Bank, GAVI, USAID, Global Fund and centre for Health solutions while implementing various activities in the County.

Capital and Non-Capital Projects

Completion of the ongoing/phased projects will be given preference as well as projects for upgrade shall also continue. Equipment purchase shall also be prioritized. Proper management and use of Health commodities as well as improved Service Delivery will bring the expected change.

Harnessing cross-sector synergies

Various departments have impacts on health in general. Agriculture begins by providing food that is required for health. Food insecurity has a major impact on health and human growth.

Accessibility of Health facilities can be improved by the infrastructure available in the County. Accessibility of roads can have an impact on the health of an individual(s). The environment an individual resides in can also affect his health and the health status of an environment has a corresponding significance to the health of the individual.

Mitigating adverse cross-sector impacts:

Agriculture should aim at improving food security so that the nutrition health can be taken care of. The infrastructure sector should aim at improving the infrastructure for health service accessibility. The environment and natural resources should aim at providing a healthy environment for the wellbeing of the residents of Nyandarua County.

Cross-sectoral impacts

Programme name	Sector it has collaboration	Cross sector impact		Mitigation measures

Programme Name	Sector	Cross-sector Impact		Measures to Harness or Mitigate the Impact
		Synergies	Adverse impact	
Livestock development	Human resource	-Food security -Animal provide labor -employment in agro-processing industries.	-Chemicals used in livestock enterprises are pollutants and health hazard -gases from zero grazing units are pollutants zoonotic diseases -competition for grains used in livestock feeds -competition for available land	Use of bio degradable chemicals Sensitization on handling of animals and their products will reduce incidences of zoonosis Harness methane gas for use as fuel Develop alternative sources of energy and proteins Training on save use of chemicals Increasing agro-processing industries will increase employment opportunities
	Infrastructure	Provision of clean energy – bio gas -animals are used in transportation of goods	- Land encroachment -Roadside grazing often lead to accident -accidents from beasts of burden	Sensitization and adoption of modern animal rearing systems
	Governance	-Facilitation in terms of resources affects service delivery -Regulatory role on produce Develop policy on livestock issues	Delay in disbursement of funds	Strengthening of policy framework for better service delivery and marketing of livestock and their products. Timely release of funds

	Productive	Cooperatives help market livestock produce Agro -processing factories and cottage industries enable farmers produce fetch better prices in addition to employment. -irrigation enables production of animal fodder across seasons	Overstocking leads to environmental degradation	Farmers should be encouraged to form marketing cooperatives to streamline marketing.

CHAPTER 4

RESOURCE ALLOCATION

This section presents a summary of the proposed budget by programme and sector/ sub-sector. It also describes how the County government is responding to changes in the financial and economic environment.

RESOURCE ALLOCATION CRITERIA

Resource allocation is vital for the advancement of the socio-economic transformative agenda of the county. The considerations are not limited to:

- (i) Development priorities identified in CIDP 2 from the Governor’s manifesto, the Jubilee manifesto, MTP III, sectoral plans and stakeholder’s consultative forums.
- (ii) Mitigation of COVID-19 pandemic effects on all the key facets of socio-economic development for the county citizenry;
- (iii) Assumption into the office of a new administration;
- (iv) A shift of budgetary allocations from a social budget to a more balanced budget factoring both the social and infrastructure development budget;
- (v) Flagship Projects, the Big Four Presidential Agenda, The Governor’s Transformative Agenda and the 80-20 Rule.
- (vi) Ongoing/phased projects: the emphasis is given to the completion of ongoing and unfinished projects and in particular infrastructure projects and other projects with a high impact on poverty reduction, equity, and job and wealth creation.
- (vii) Job creation: Specific consideration to job creation for the youth based on sound initiatives identified in the Governor’s manifesto and during the county stakeholders’ consultation for the CIDP will be considered as well as disability and gender mainstreaming.

4.3 FINANCIAL AND ECONOMIC ENVIRONMENT

The novel COVID -19 Pandemic and its ripple effects on the global and national socio-economic growth and development continue to be felt across the globe and country. However, the World Bank anticipates that Kenya's economy is staging a partial recovery but with uncertainty remaining high and prospects hinged on the COVID-19 vaccination drive that is currently underway across the country. Kenya's gross domestic product (GDP) is expected to expand by 4.5 percent in 2021, according to World Bank projections released in June 2020, indicating a partial recovery from the COVID-19 pandemic. According to the latest World Bank research, economic activity is expected to accelerate to above 5% in 2022 and 2023.

An increase in the rate of economic growth is expected to revitalize the local economy culminating to enhanced local revenue collection. With a baseline of Kshs. 408 Million in the financial year 2020/21, it is expected that the County could be in a position to hit local revenue targets of over Kshs. 500 Million. It is also expected that the electioneering season will be complete hence the impact of the activities will not be felt on the County's economy.

The County will put more emphasis in the agricultural sector for its Socio- economic transformative Agenda. There are ongoing projects such as potato, vegetable and milk processing

plants which should be operationalized by the time this plan becomes operational. This is meant to raise farm gate prices for farmers' produce, reduce farm losses and add value to the produce thus increasing their disposable income.

The County government, in pursuit of attaining its socio-economic transformative Agenda will continue to enhance the capital investments in the health sector in terms of infrastructure set up such as Upgrading of JM Hospital from level IV to Level V, operationalizing more health centres, providing equipment, medicine and enhancing human capital.

4.4 RISKS, ASSUMPTIONS AND MITIGATION MEASURES

The County Government in pursuing its goal of improving the livelihoods of the residents through its Socio-economic Transformative Agenda., it acknowledges that various risks may hinder the fulfilment of its fiscal objectives.

The potential risks associated with the implementation of county fiscal policies include:

- ❖ COVID-19 pandemic has led to a global and national economic downturn. This is due to disruption in global trade and travel and containment measures that led to economic activity contraction leading to unemployment and decreased business incomes. This could impact on the Conditional grants to Counties or the equitable share revenue disbursed to Counties. The County is to leverage on currently available resources to optimize its program implementation whilst cushioning on any eventualities.
- ❖ Domestically, the economy is exposed to risks such as pests/diseases and any occurrence of adverse weather conditions like drought and intense rains leading to floods and public expenditure pressures especially recurrent expenditures. This can be mitigated through rationalizing expenditure.
- ❖ Low own-source revenue collection due to the effects of the COVID-19 pandemic. The County envisages promoting and enhancing trade through the County Trade Development and Investment Authority.
- ❖ Project formulation and implementation require concerted efforts between all the stakeholders. Void of this, the objectives may not be achieved. The County is to seek partnerships with all Stakeholders for the unity of purpose in programme and project implementation.
- ❖ Kenya's worsening debt situation adds to the risks that existed even before the Covid19 pandemic. This could negatively impact on equitable share of revenue to counties as well

as conditional grants. The county should prioritize expenditure as well as mobilize local revenue through tapping of the county's agricultural potential.

- ❖ Non-compliance with donor requirements .Failure to comply with specific donor conditions may have dire consequences such as withdrawal of funding by donors or recommendation to refund donors in case of misappropriation of donor funds. The county should ensure compliance through strict budget implementation as well as accountability.
- ❖ After the 2022 general elections there will be a change in administration. This could lead to change of priorities due to different agendas from the current administration. This could result to deviation from the plans laid herein.

CHAPTER 5

MONITORING AND EVALUATION

5.1 INSTITUTIONAL FRAMEWORK FOR MONITORING AND EVALUATION IN NYANDARUA COUNTY

Introduction

This chapter focuses on the development of a monitoring and evaluation system for specified programmes and projects to be funded and implemented either from internal or external resources during the plan period as stipulated in the County Government Act, 2013.

It also specifies objectively verifiable indicators that will be used to monitor project/programme implementation. The roles of the various stakeholders are also specified in the monitoring and evaluation system.

A robust monitoring and evaluation system will ensure that the county government programmes and projects are achieving their intended goals. It will also help identify challenges and obstacles that hinder effective policy implementation, as well as how to address those challenges based on lessons learned.

The National Ministry of Planning under the Monitoring and Evaluation directorate has developed the National Integrated Monitoring and Evaluation System (NIMES). Under the system, all monitoring systems are incorporated into the national system; the monitoring systems at the sub County levels will feed into the County level which will, in turn, feed into the national system.

County Assembly Committees, County M&E committee (CoMEC), Sub County M&E committees (SCoMEC), M&E Unit and Sector Monitoring and evaluation Committees (SMEC) will conduct continuous monitoring throughout the plan period.

The County Monitoring and Evaluation Committee

During the plan period, County Monitoring and Evaluation will be a continuous exercise that will be done periodically accompanied by periodic reviews.

The CoMEC (County Monitoring and Evaluation Committee) will ensure that the County Executive Committee (CEC) and County Assembly have good quality information needed to make decisions and to lead and direct County initiatives. To do this, the CoMEC will provide quality assurance by verifying whether the M&E information given in the reports and the underlying data

collection and analysis processes are of the needed quality and conform to the M&E requirements outlined.

The CoMEC will also oversee the overall County compliance and results of project implementation and service delivery within the CIDP2 and ADPs. The CoMEC will be charged with preventing duplication and wastage and providing the evidence base for policy-making and management.

Data collection, Analysis and Reporting Mechanisms

Data Collection

The county will combine various data collection techniques among them administrative data and reports review, field visits, questionnaires, interviews, surveys, statistical records among others.

The data collection methods will be determined by;

- ❖ Information required
- ❖ Availability of human resource
- ❖ Time frame within which the data collection is required
- ❖ Financial resources

Data Analysis

Data analysis is the process of making sense of the data collected, converting data into useful information that can be relied on. Both the qualitative and quantitative data gathered will be analysed using suitable data analysis techniques such as content analysis and statistical analysis to draw further insight from the data. Information obtained from the analysis of this data will be used to inform policy development and enhance result driven decision making within the county.

Reporting Mechanisms

Monitoring and Evaluation reports are quite vital in the M&E process since the M&E findings highly depend on the quality of these reports.

It is therefore necessary to have a strategic reporting system where reports can be accurately and easily retrieved. At the County, the Monitoring and Evaluation Unit will be an important player in the production of M&E information.

Mechanism of Information Dissemination

The County will disseminate M&E Information through several methods, among them News releases, press conferences, public speeches, publication of reports, social media, County website among others.

In the long run, the County will automate the production and presentation of M&E reports through;

- ❖ Creating an online environment of automated forms.
- ❖ Sharing of real time data through the county website.
- ❖ Automatic population of reports in the required formats.
